BE PART OF THE ADVENTURE, BECOME AN EXPERT

To take the success of the solar-powered flight around the world further, the Solar Impulse Foundation is selecting 1,000 solutions that protect the environment in a profitable way and awarding them the Solar Impulse Efficient Solutions Label.

This label serves as a new and credible symbol that can be applied to products, processes and services that have reached a maturity of 1:1 prototype and serves as a guarantee of quality to those looking to implement clean solutions and affords a competitive edge to the innovators behind them.

Assessed by independent experts for their feasibility, environment, and profitability, a portfolio of these solutions will be brought to decision-makers to encourage them to adopt much more ambitious environmental targets and energy policies.

**SELECTION CRITERIA**

- Credibility of concept
- Scalability
- Environmental benefits
- Client’s economic incentive
- Seller’s profitability
- Feasibility
- Environment
- Profitability

**which topics of expertise do we need?**

**GOAL 6**
Clean water and sanitation
- Water production
- Water treatment
- Water distribution and use

**GOAL 7**
Affordable and clean energy
- Clean energy production
- Energy from waste
- Energy distribution
- Energy storage
- Renewable fuels

**GOAL 9**
Industry, innovation and infrastructure
- Industrial processes
- Materials & chemistry
- Freight transportation
- Industrial pollution management

**GOAL 11**
Sustainable cities and communities
- Urban & inter-urban mobility
- Communities infrastructure
- Building and shelters

**GOAL 12**
Responsible consumption and production
- Farming for food production
- Circular economy of wastes
- Resource management
ABOUT THE EXPERT COMMUNITY

**Expert’s profile**
- Technical profile
- Academic profile
- Minimum 5 yrs experience
- Fluency in English
- Enthusiasm, flexibility and interest in the Sustainable Development Goals

**Expert’s registration process**
- Create your account
- Complete your profile, indicating your areas and years of expertise.
- Once the profile is validated, enroll in our welcome webinars.
- Learn everything about the assessment process.
- Start Assessing Solutions

**Expert’s role**
- Receive solution proposals tailored to your Expert profile
- Access the Solution Submission Form (10-20 pages file)
- Accept or decline within 7 days
- Evaluate from 1 to 3 sections
- Ask questions to the innovator in the chatbox
- Complete your assessment within 15 days
- Receive the outcome of the Solution you have assessed.

**Expectations**
- 2-4 hrs per assessment
- 1 assessment per month
- Attention to deadlines
- Proactiveness and responsiveness

**Benefits**
- Receive invitation to attend high level events and conferences
- Join an exclusive Community, meet and network with other experts from all over the world
- Participate to experts’ challenge and assess solution in teams
- Learn from Assessment feedback
- Access confidential files
- Access to technical articles and webinars
- Tailor your voluntary contribution and get recognition
- Meet Bertrand Piccard
- Meet innovators and their Solutions
