Transformative Conference
Creative Dinner
Exclusive Networking

Normal participation fee = 80€ pp

SCOPES

WHO ATTENDS?

You will meet high-level corporate and investor representatives, entrepreneurs, academics, and other innovation leaders from Europe but also across the globe.

With a range of 250 to 300 attendees, all participants are from different industries but with a common interest: to gain insights on today and tomorrow's state-of-the-heart in sustainable innovation.

WHY LAUNCHING THE GREEN MIND?

As a European player in the transition, Greenfish's environmentally responsible approach plays a decisive role in building a sustainable future. We are absolutely convinced that it is only by gathering our network, fostering knowledge sharing, and working collaboratively in adopting new solutions that we will succeed in collectively achieving our goals.

After three successful editions, the **Green Mind** will be held on the **16th of September** in **Brussels**. Around 300 people are expected to attend this event where various opinion leaders and specialists from the private and the public sectors, as well as the academic world, will come to share and exchange their views on sustainable challenges in Mobility, Circular Economy, and Energy. This annual gathering offers a comprehensive one-day and evening program along with exclusive opportunities to learn, network, and get deals done.

THE GREEN MIND IN 2019

Last year, under the auspices of Greenfish and its partners BNP Paribas Fortis, InnoEnergy, Solar Impulse Foundation, Impact Valley, EU Sustainable Energy Week, EU Green Week, and Climate Seed, the 3rd edition brought together more than 250 participants in the field, including professionals, innovators and academics from a variety of disciplines.
